“I utilize a wide variety of found, altered, and created objects and materials to celebrate events, interpret themes, or simply to tell stories, both real or of my imagining.

I feel that my diverse technical background and my inherent eye for colour, texture and balance are well used in this marriage of materials.

Form and Function combine with Reality and Myth, linking the technical expertise of a Craftsperson, the aesthetic and philosophical explorations of an Artist, and the wit and whimsy of a Story Teller.”
