

"No space between us"

The chickadees are a symbol of a couple in harmony. Little space between them, but enough to breathe.

Acrylic on wood panel

Artist bio:

Juliet Promnitz

I'm a South African by birth, and a Canadian by good fortune. A life long quilter, an amateur potter and a self taught painter, I enjoy all forms of art.

I find inspiration in nature and the beauty that surrounds us. I'm always looking for the silver lining!

I find myself constantly changing as an art maker, seeing the old and everyday through new eyes, never static, always transforming.
